

Class 2 Curriculum Newsletter – Spring 2

Dear Class 2,

Welcome back to the second half of the spring term! We have many exciting learning opportunities to look forward to! We will be continuing with our learning about Coastlines this half term. Through this learning, we will discover more understanding in our Geography lessons. This learning will also underpin our English curriculum core texts, beginning with The Lighthouse Keeper's lunch.

We are revisiting some key mathematical learning that requires some revision; including addition and subtraction with renaming and applying these skills to reasoning word problems. Later in the half term, we will cover shape and money.

We have a wonderful opportunity to showcase all of our learning so far this term in our class assembly on Friday 17th March. We hope to see many of you there.

Best wishes,
Miss Rees

Homework Notice!

Every Friday Monday homework will be handed out. Please ensure it is completed and returned on Friday, we will also complete our spelling test Friday morning.

Maths

In Maths, this half term we will be revisiting some key learning including; addition and subtraction through problem solving and reasoning. We will also be covering shape and money.

English

In English, we will be continuing to develop our stamina for writing at length and using core texts linked to our half-termly focus on Coastlines. We will continue to learn and implement a new spelling focus each week.
