#### Science

Class 2 have been spending time out in the glorious sunshine, searching for living organisms as part of their Science learning on microhabitats. I wonder what they found?

## Confirmation

Congratulations to
the members of Class
6 who were
Confirmed at St Mary
Abbots Church a
couple of weeks ago.
In this week's
Eucharist, they were
able to take Holy
Communion and
were welcomed into
the Church
community.

### Friday 9th June - Ussue 19

# Dexter Mail

### Forest School

Class 1 had their final
Forest School session for
the year where they
learned all about
directions on a compass.
They used their new
knowledge to create
nature maps with
markers for North, South,
East and West.

### Computing

Class 3 and Class 5
had a very exciting visit
from Junior Stem, who
ran a brilliant coding
workshop. The classes
built Lego robots and
used a coding platform
to control the
movements of the
robot. The children had
a wonderful time and
learnt many new
things.
