

## SMAil

There has been some exciting Science lessons happening this week at SMA! Class 3 were observing and categorising animals according to whether they have an endoskeleton or exoskeleton. Class 6 carried out an experiment to test the hypothesis "Children with lower resting heart rates can sprint faster than those with higher resting heart rates"

The sales and the sales of the

Thursday To Oscember 2023

LI: To make accurate observations to identify changes over time, identify processes and make comparisons.

Hypothesis: Children with lower resting heart rates can sprint faster than those with higher resting heart rates.

I predict that:

I have the strength in the states and live and severy than those with higher resting heart rates.

I have the strength in the states and live and severy than the states are live and severy than the states are live and severy than the states to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

By resting heart rate. Time taken to run 100m.

Reception Class has had an exciting week!
They baked cupcakes as part of their DT project and were visited by Father Tim who spoke to them about Advent.

Class	Attendance
R	98%
1	96.2%
2	97.1%
3	96.8%
4	96.1%
5	96.3%
6	95.5%
Whole School	96.7%

## Friday 8<sup>th</sup> December - Issue 11

Class 2 and Class 4 visited Lambeth Palace to take part in the Wintershall Estate Travelling Crib. The children met characters from the nativity and listened to their stories about what happened when they were told about the birth of Christ.

Class 5 has been exploring the features of explanation texts and focusing on how to compose writing using a formal tone. They have been writing their own versions all about pneumatics, and look forward to next week's DT day where they will build their own.
