

SMAil

Welcome back everyone! We hope you have all had an incredible summer holiday and everyone is ready for an exciting, new year!

Friday 13th September

Class 2 have been learning about comparing numbers of different sizes with greater than and less than symbols and testing their learning partners on the carpet.

Class	Attendance
R	100%
1	96%
2	98%
3	98%
4	94%
5	98%
6	98%
Whole School	97.6%

Over the past week, every class has been focused on getting settled into their new classrooms and clearing the summer cobwebs away!

Class 1 have been practising 'magnet eyes' during their phonics lessons. They show Miss Miller their 'magnet eyes' so she knows they are looking at her and concentrating.

Class 6 has been investigating numbers to ten million. To understand the value of the different digits, they have been playing games in partners, such as creating the largest number by rolling a dice.

Our new Reception children have been settling into their classroom and Busy Learning – doing number puzzles and creating their own unique Elmer!

Class 3 has been investigating different aspects of life in the Stone Age and asking questions about how life was different back then compared to our lives now.
